

# Schoolnet Overview for Districts

Fall 2020  
Beginning  
Of  
Year  
Assessments

# Topics

Schoolnet Access

Monitoring Student Testing

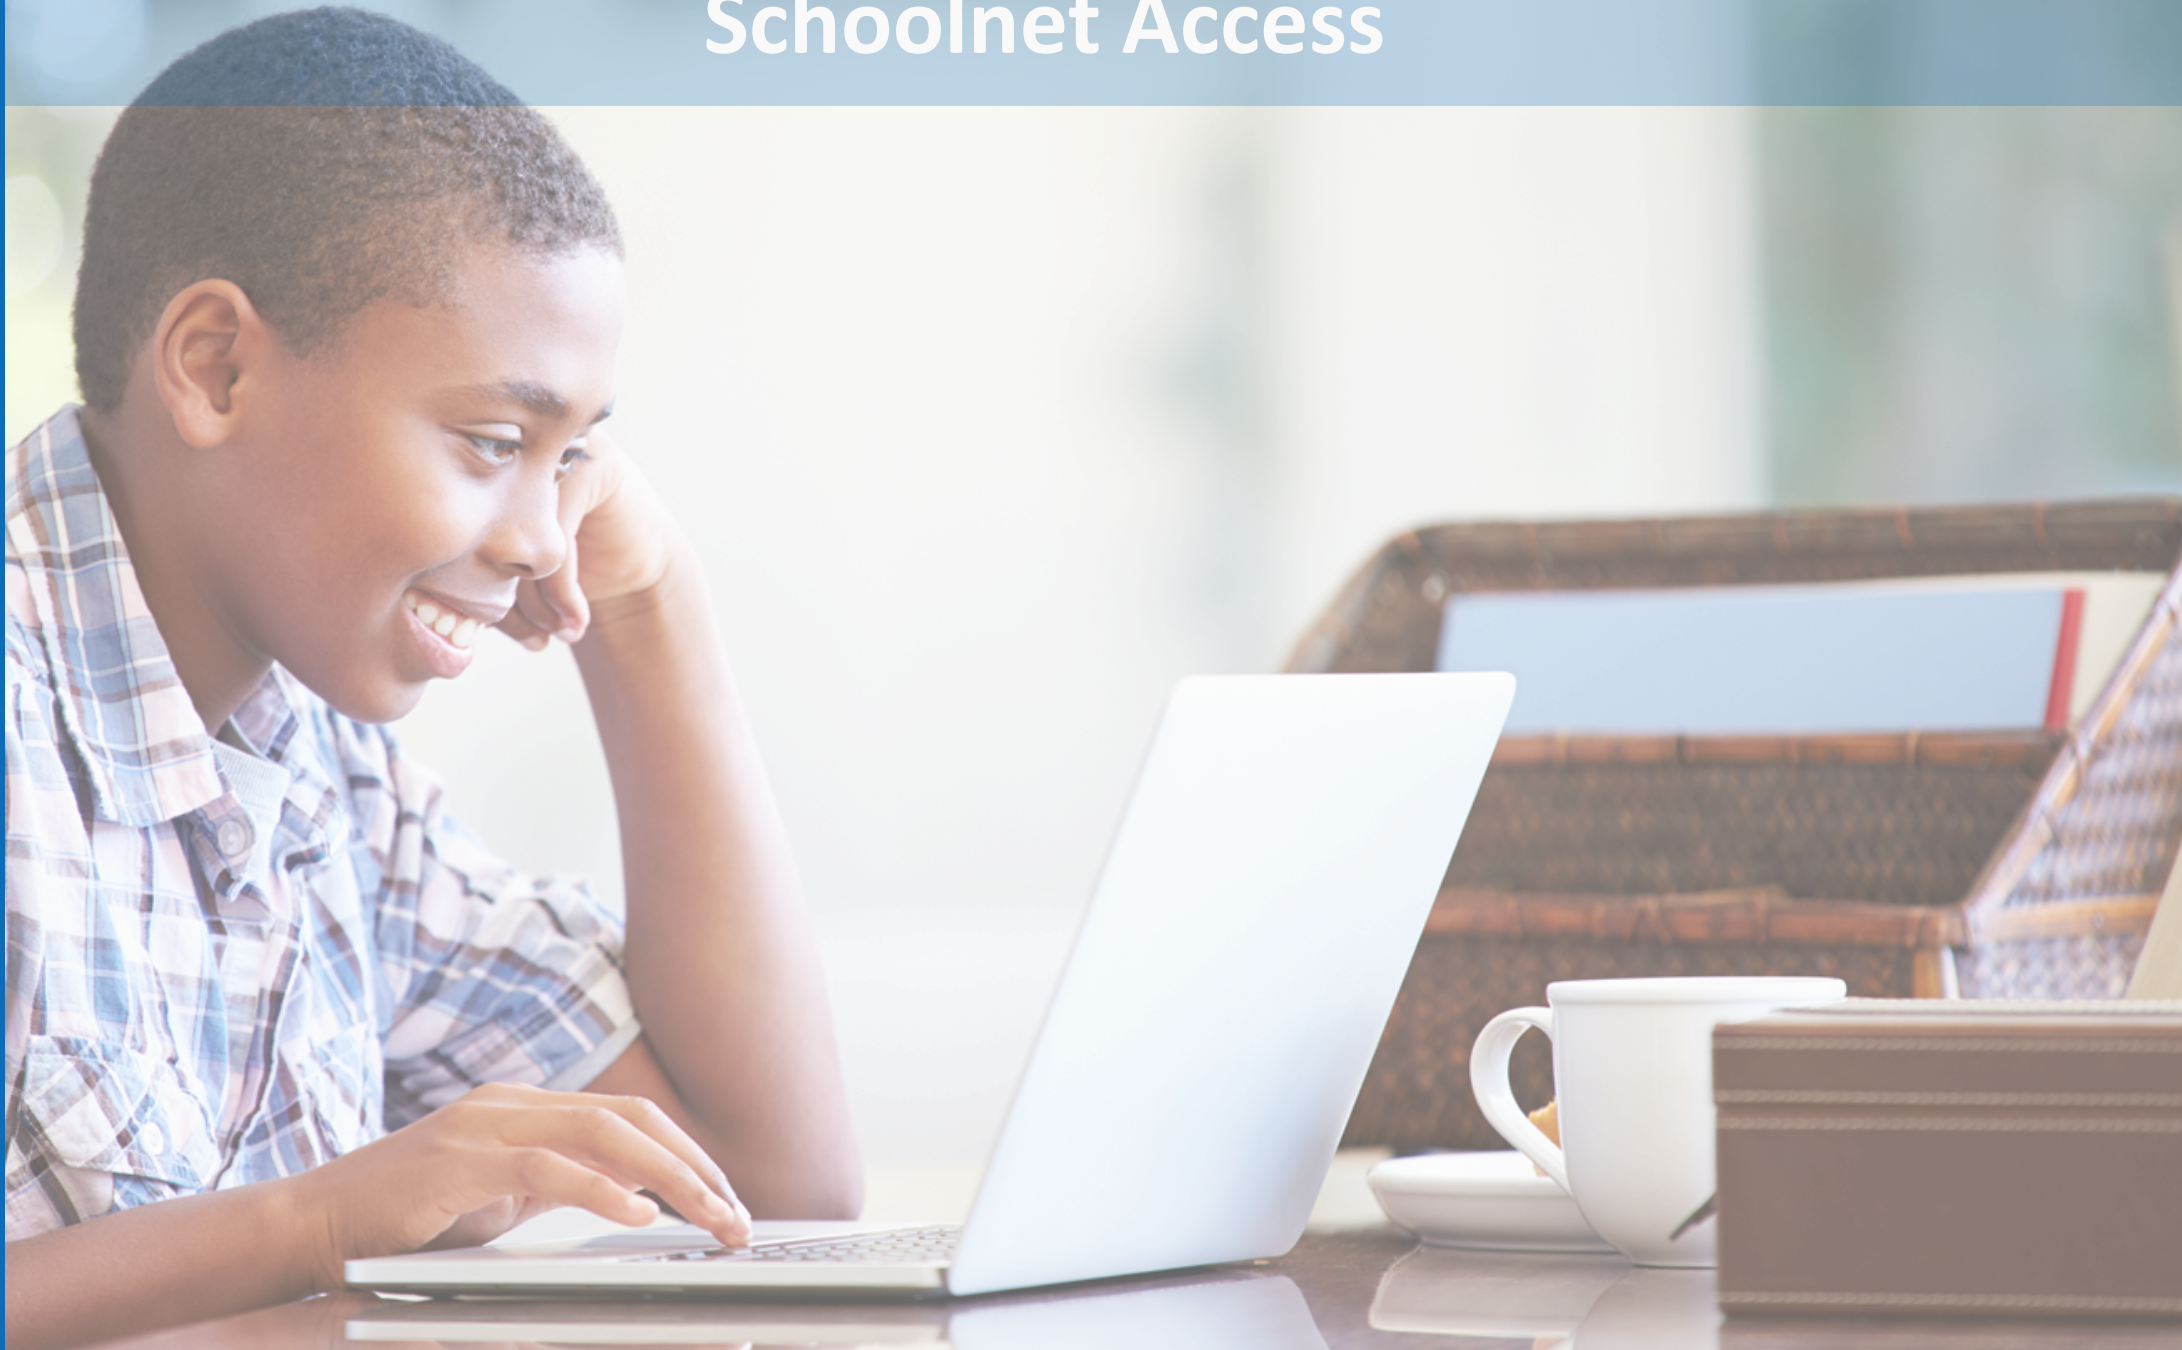

Resources and Support

Please note that it is not necessary for districts to access Schoolnet. However, if a district wants to monitor student testing, this training will provide helpful information.

# Schoolnet Access

# Schoolnet Overview

## What is Schoolnet?

Schoolnet is an online platform that combines assessments, reporting, and instructional management tools. This platform will be used to administer the optional beginning-of-year (BOY) assessments.

## What is the Schoolnet URL?

<https://tx.schoolnet.com>

## When will Schoolnet be available for BOY assessments?

Schoolnet will be available for testing during the BOY assessment window scheduled from **July 27, 2020 through September 25, 2020.**

# District Access to Schoolnet

- How and when will districts receive access to Schoolnet?
  - A district must register for BOY assessments by submitting
    - the webform and
    - its registration data files to Pearson
- Pearson will load registration file into Schoolnet and within 48 hours of successful registration file upload, the district SFTP site will contain:
  - Student log-in credentials for Schoolnet
  - District and campus Schoolnet user account credentials (districts who participated in the End-of-Year (EOY) may use the same credentials)

# BOY Assessment Registration Process

## Step 1

Districts notify Pearson of choice to participate by submitting the Fall 2020 Optional Beginning-of-Year (BOY) Assessment Registration **webform.**

## Step 2

Districts will receive an email with details on how to access their SFTP site.

## Step 3

Districts upload student registration data to the SFTP site. Student data will be uploaded into the Schoolnet platform within 48 hours of successful registration file upload.

## Step 4

An Excel extract of student testing credentials will be posted to the district's SFTP site.

# Schoolnet Access for Students in a Non-Participating District

## **Step 1**

Parent registers student by submitting the parent registration form.

## **Step 2**

Parent receives student testing credentials via email.

## **Step 3**

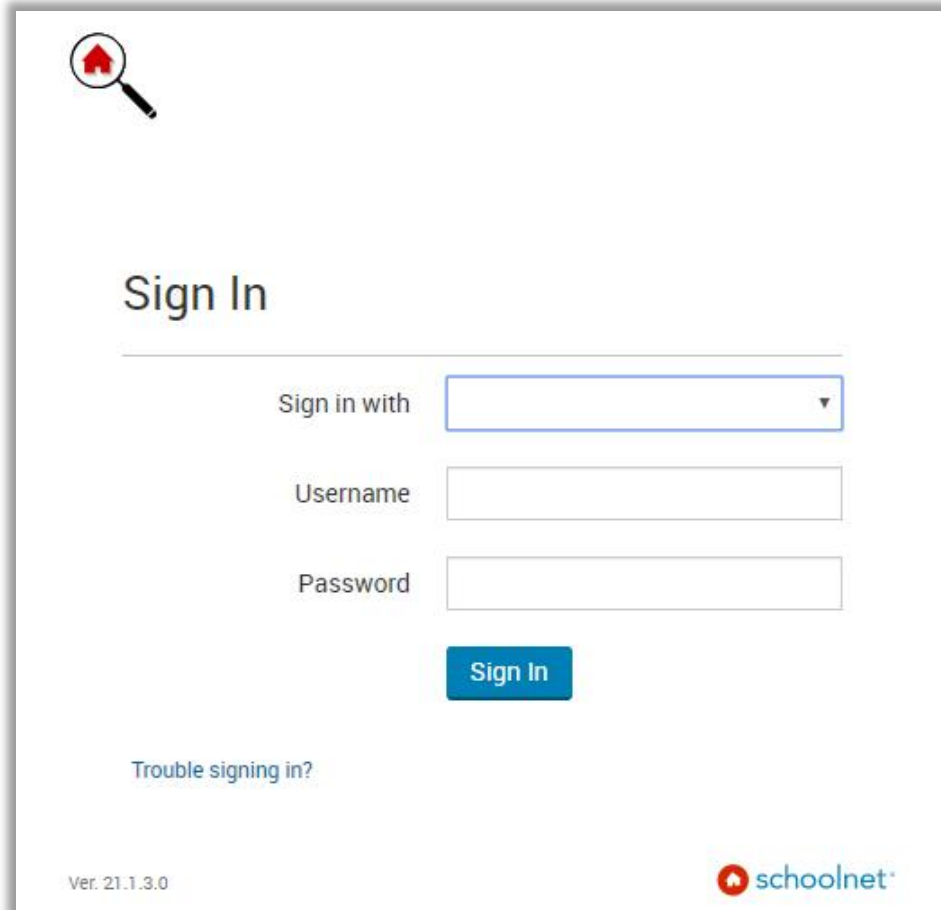

Student will log in to the Schoolnet website and enter the username and password provided.

## **Step 4**

Student will enter the test passcode to begin testing.

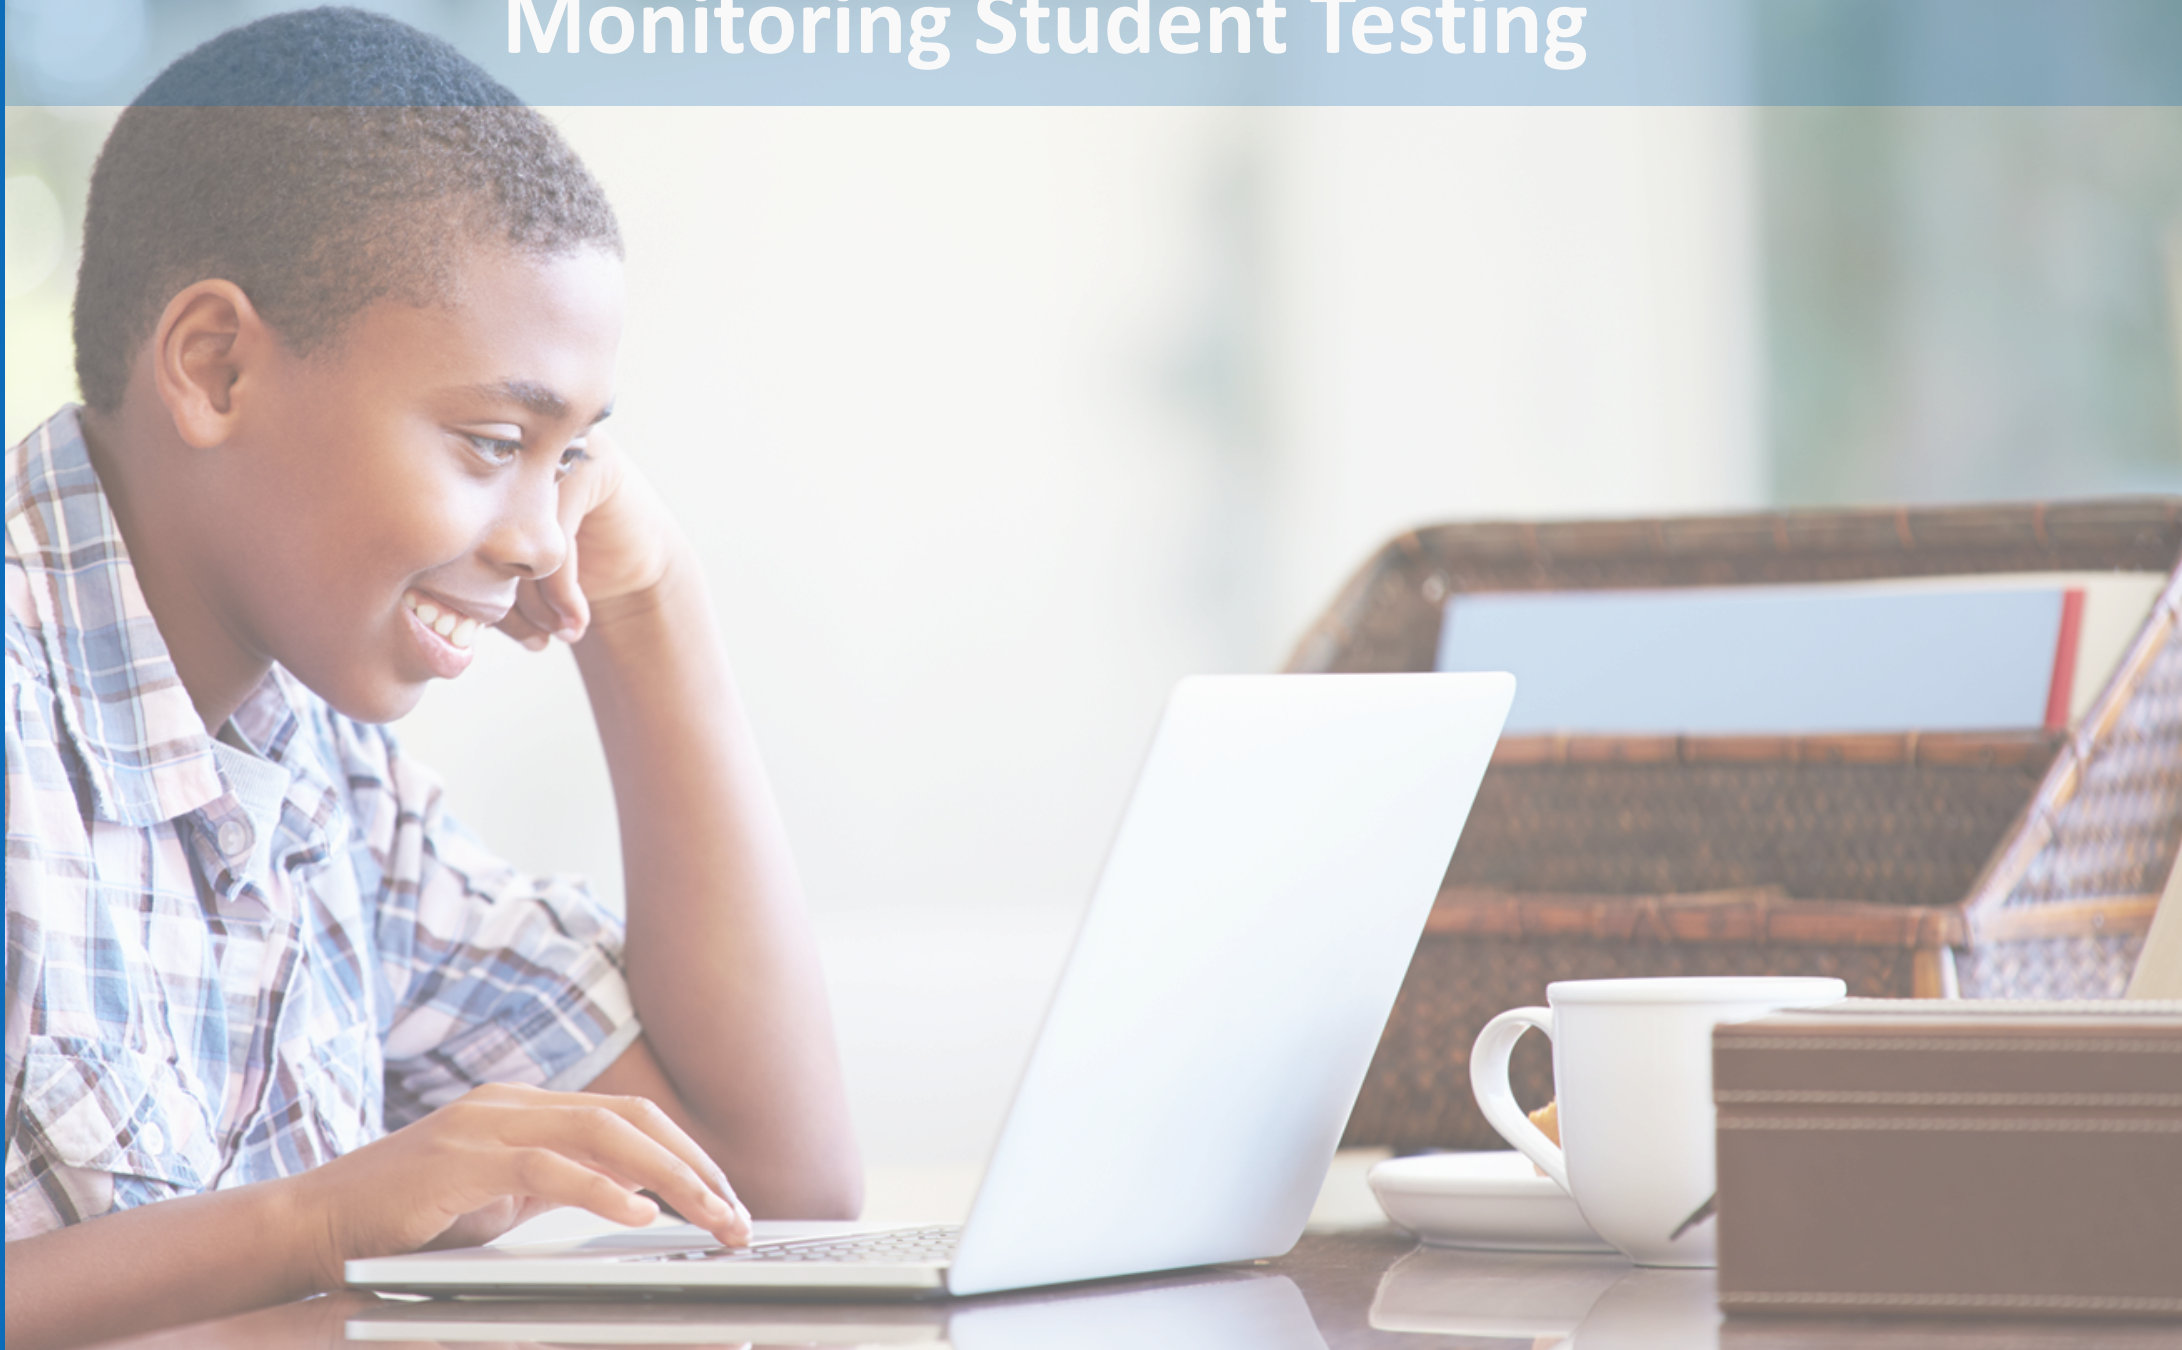

# Student Access to Schoolnet

The screenshot shows the 'Sign In' page of the Schoolnet application. At the top left, there is a magnifying glass icon over a red house icon. Below this, the text 'Sign In' is displayed. Underneath, there is a 'Sign in with' dropdown menu, followed by 'Username' and 'Password' input fields. A blue 'Sign In' button is positioned below the password field. At the bottom left, there is a link that says 'Trouble signing in?'. At the bottom right, there is a red house icon followed by the text 'schoolnet'. In the bottom left corner, the version number 'Ver. 21.1.3.0' is displayed.

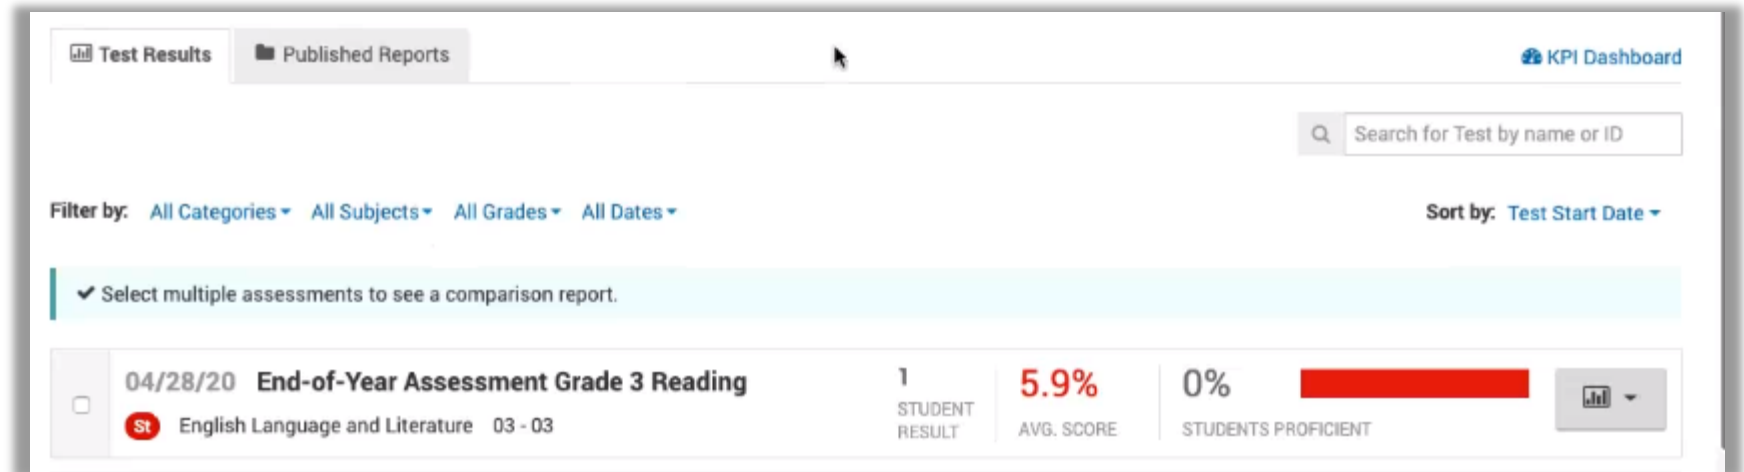

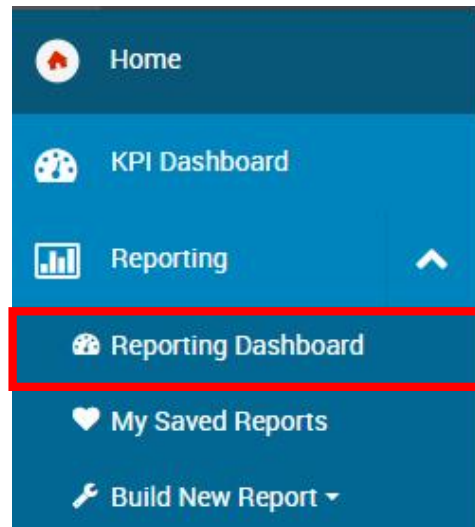

- If a student is testing under the district registration, the student should select the district name in the *Sign in with* box.
- If a student is testing under the parent registration, the student should select “Parent” in the *Sign in with* box.

# Monitoring Student Testing

# How Can I See If Students Are Testing?

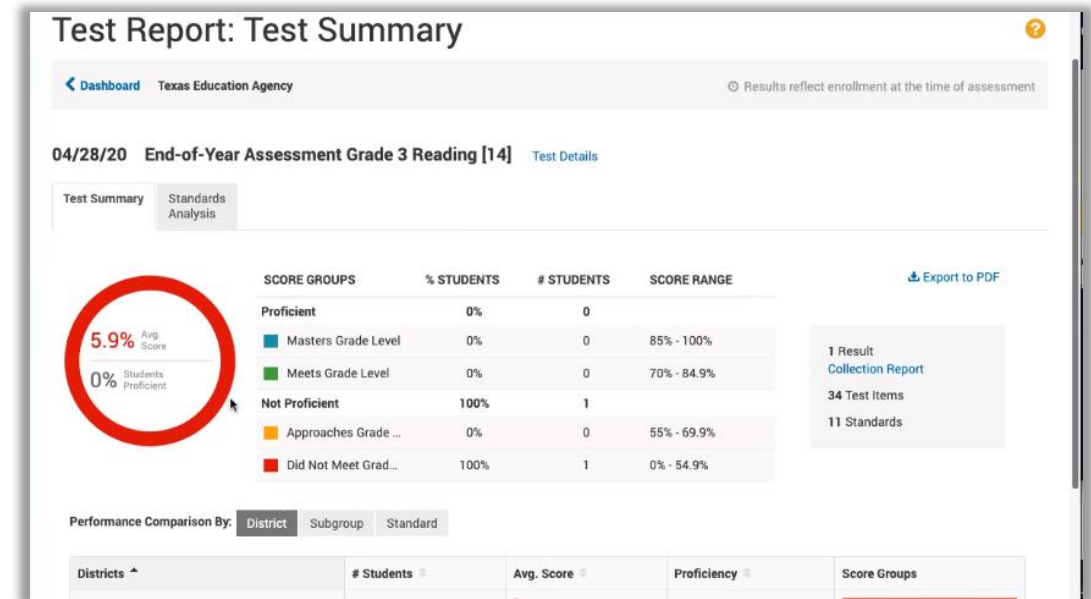

- To see if students are testing, go to the *Reporting* menu.
  - In the *Reporting* menu, select *Reporting Dashboard*.
  - Once students start to test, the test results will display in the Reporting Dashboard.

# What Information Is Available in the Reporting Dashboard?

- From the test listed in the Reporting Dashboard, districts can access:

- test completion rates,
- a list of students who were assigned a test but do not have submitted results, and
- results by students.

# What Is the Data Collection Report?

- The Data Collection report shows the collection status of ‘in progress’ and ‘completed’ tests administered during the test window.
- To run the report, follow these steps:
  - 1) In the *Reporting* menu, select *Report Dashboard*.
  - 2) In the *Test Results* tab, locate the assessment, using available filters if needed.
  - 3) Click the test title to access the Test Summary page.
  - 4) On the Test Summary, click *Collection Report*.

# What Information Is in the Data Collection Report?

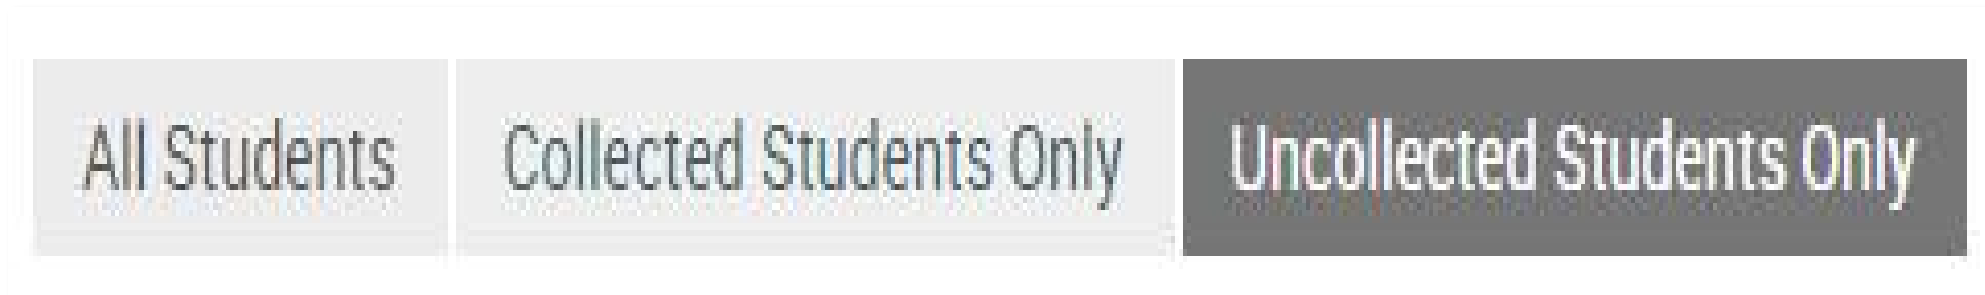

For each group of students, the report shows:

- number eligible for testing (assigned to this test),
- number of results collected so far,
- percent of the assigned total that has been collected,
- how many have been completed, and
- test collection status.

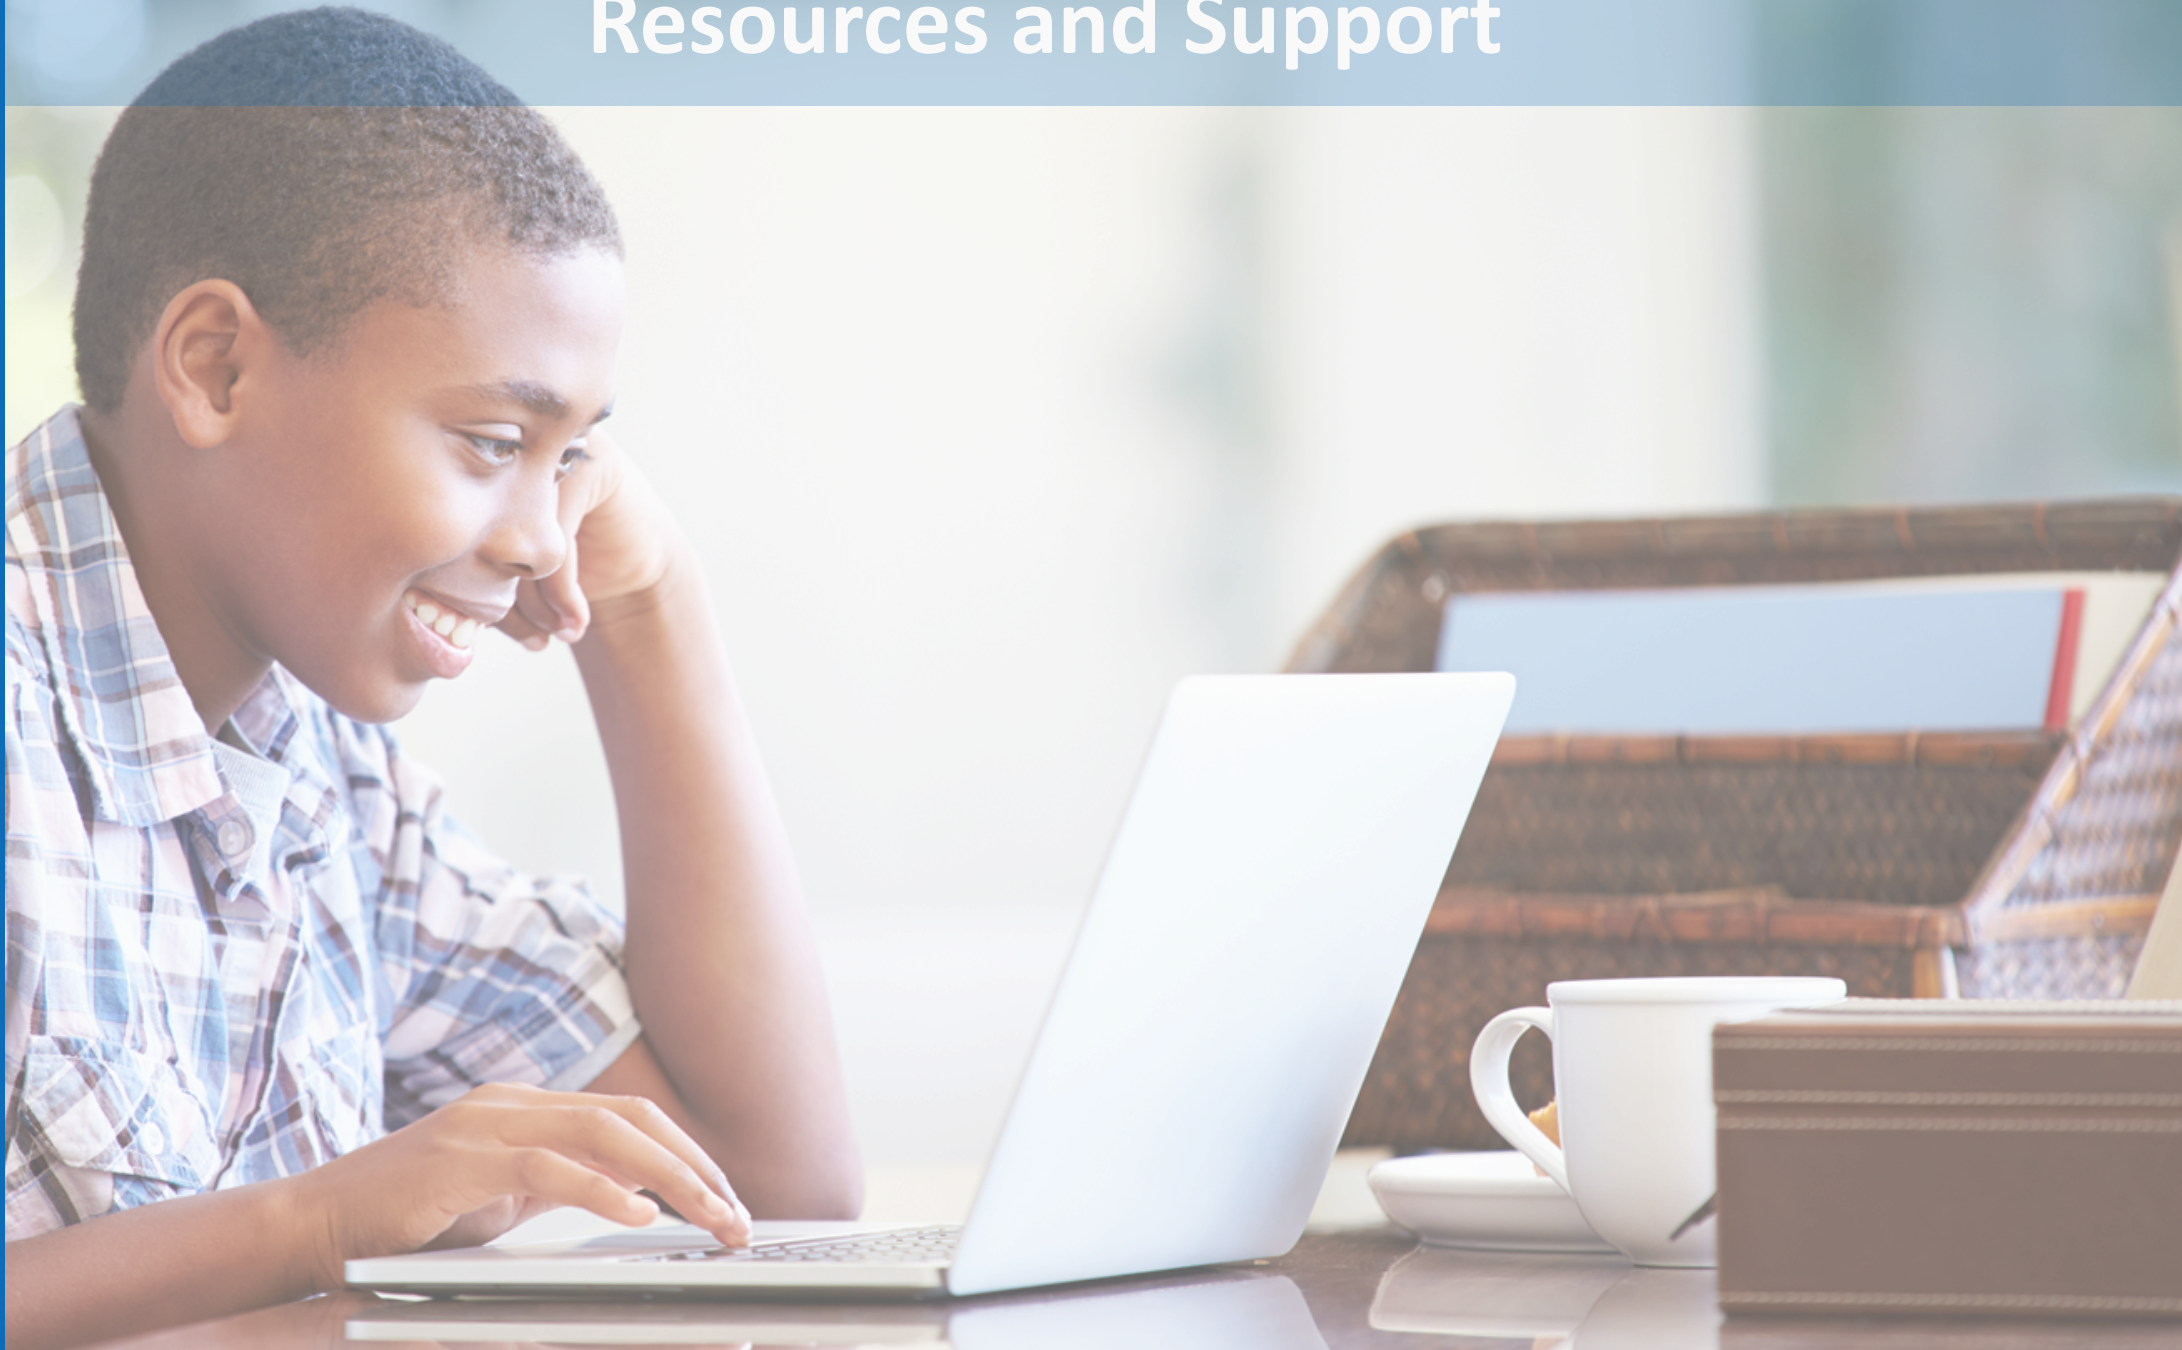

Location ^	# Eligible for Testing ▾	# Data Collected ▾	% Data Collected ▾	Completed Online	Collection Status ▾
DELOSSANTOS SCHOOL	2,089	1	1%	1	In progress

# What About Students Who Have Not Tested?

- To view a list of students who were assigned to take a test but who do not have results submitted in Schoolnet, click *Uncollected Students Only*.

# Resources and Support

# District Toolkit

The following resources are available in the District Toolkit on the [TEA Optional Beginning-of-Year site](#).

## District Toolkit

- Webinar
- Provide Student Registration Data File
- User Account Distribution
- District Paper Testing
- District Results File Format
- District Results File Sample
- Answer Document Scanning

# Parent Toolkit

The following resources are available in the Parent Toolkit on the [TEA Optional Beginning-of-Year](#) site. Districts may want to review some of the information available to parents.

## Parent Toolkit

- BOY Assessment Overview
- Online Tutorial
- Home Test Readiness
- Parent Technical Support
- Student Results
